"There's nowt like home cooking," my mother used to say, and by gum, she was right. Ever since I was a little lass, I've enjoyed a session in the kitchen.

Now, in this cook book, I've a wonderful chance to share my cooking experience with the millions of WOMAN Wooden Spoon Club readers.

Here are recipes from my native Lancashire, exciting Italian dishes learned in my Mediterranean home on the jewel isle of Capri, and many others collected over the years during my travels throughout the world as a concert artist.

To all Wooden Spooners I wish good cooking and happy eating.
